

# Recliners

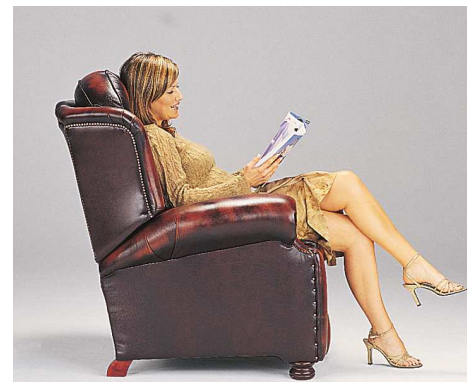

*Albany*

*Sarah*

*Charlotte*

These 3 images show the 3 step manual mechanism on our recliner chairs. We also offer an electric motor addition which allows you to stop the recliner at any point within upright & fully reclined.

Our recliner chairs are available in the below designs but we can also supply bespoke recliners on any other range!

Albany  
Cambridge  
Charlotte  
Pendle

Sarah  
Suzanne  
Woburn

Lift & Rise recliner chairs are an invaluable mobility aid for people who find standing up & sitting down difficult or uncomfortable. These chairs help maintain personal independence & will make life for some people much easier. Our Lift & Rise mechanisms can take you from fully reclined to standing up. The chair rises you up so it is easier to get in & out of the chair.

This mechanism is available on our Suzanne (shown below) & Sarah (shown to the right) ranges, by incorporating this mechanism in to these 2 ranges it allows us to offer a durable, reliable & comfortable specialist chair. The Suzanne & Sarah ranges can be altered with buttons & studs for more or less detail & these chairs can be made in any colour leather or fabric.

WE LOVE...  
How sturdy our recliner mechanisms are!

The images below show the stages of our lift & rise recliner chairs & as the mechanism has a dual motor this means you can move the footrest without having to recline back.
